## Description

Yamaha has been leading the way in the 115 horsepower four-stroke category for over ten years, with exceptional models that have proven the true value and versatility that a four-stroke outboard can deliver Australian boaters. With its increased engine capacity and a weight reduction of 15kg, the latest generation Yamaha F115 offers the best power-to-weight performance in its class - while maintaining an extremely fuel efficient and smooth operation that Yamaha four-strokes are famous for. This engine utilises a 16 valve, dual overhead camshaft design, electronic fuel injection and big bore throttle body to deliver awesome acceleration and mid-range responsiveness. The 115 horsepower is now available in both signature Yamaha grey and new pearlescent white colour options, in both long and extra long shaft length.

**Technical Specification**  
HeightL: 516 [20.3] | X 643 [25.3]  
WeightL: 171 | X: 176  
Engine4-Stroke, 16 Valve DOHC Direct Action In-line 4  
Displacement1832.0  
Bore81.0 x 88.9
